| 12:15 pm – 12:30 pm | Q/A Session |
| 12:30 pm | Adjourn |

Why should your community participate?

Join the professional staff from the Rutgers Cooperative Extension (RCE) Water Resources Program and the New Jersey Department of Environmental Protection at this workshop hosted by the Passaic Valley Sewerage Commission (PVSC). This workshop will highlight steps to guide you and your municipality to ensure that new development is in compliance with the New Jersey stormwater management regulations, address the draft MS4 permit and changes, and focus on the importance and benefits of inventorying your municipality's stormwater infrastructure.

Three (3) Continuing Education Credits (CEUs) will be provided to participants. This FREE workshop is sponsored by PVSC; pre-registration is required. Space is limited, and priority will be given to the 48 municipalities within the PVSC service area.
