

THE ONE BARREL AT A TIME CO-OP

Bonnie Stanislaw

Nature was part of Bonnie's life growing up in the 50's on a small farm in Poland. During her high school years, all of her free time was spent in the Art Room. She found all forms of art fascinating. Throughout Bonnie's adult life, her focus was on nature, crafting, photography and water color. Bonnie believes art connects us to life and makes us aware of our affect on it.

The art barrel painting created by Bonnie is of fields and forests full of fungi.
