Rural road drainage systems within the Assiscunk Watershed:

1. Springfield Meeting House,
2. Saylors Pond Road,
3. Petticoat Bridge Road,
4. Applegate Road,
5. Folwell Station Road,
6. Island Road,
7. Folwell Station Road,
8. Julustown Georgetown Road,
9. Monmouth Road,
10. Council Road,

These systems within the Assiscunk Rural Road Drainage Watershed.
Downstream Impact:

Shoreline slope and erosion control measures shall be installed parallel to the stream to prevent sedimentation.

2.5:1

A streamside erosion control shall be constructed on a straight undisturbed section at least 1 foot from the toe of the bank slope and not less than 1 foot from the toe of the bank slope. Material shall be placed at least 1 foot from the toe of the bank slope and used to stabilize the slope. The toe of the bank slope shall be protected from erosion by a material or a vegetative cover.

Notes:

- Approximate 1,000 feet of an access road located north of Louland Road.
