

## RESPONSE TO EVALUATIONS

Topics for future workshops (3=very interested, 2=somewhat interested, 1=not interested)

| TOPIC   | AVERAGE RANKING | NUMBER OF RESPONSES |
|---|-----------------|---------------------|
| Stressor ID protocol                                  | 2.7             | 39                  |
| Stream bank restoration                               | 2.7             | 39                  |
| Lake restoration                                      | 2.3             | 36                  |
| Stormwater BMP design                                 | 2.4             | 39                  |
| SVAP  | 2.4             | 38                  |
| ArcGIS - basic  | 2.0             | 34                  |
| ArcGIS - advanced skills                              | 2.3             | 36                  |
| Restoration - long-term evaluation/maintenance        | 2.4             | 36                  |
| LID training for developers                           | 1.9             | 34                  |
| Grant writing workshop                                | Write in        | 1                   |
| Water quality trading                                 | Write in        | 1                   |
| QAPP process improvement                              | Write in        | 1                   |
| Developing stakeholder involvement plans              | Write in        | 1                   |
| Implementation of Restoration Plans - w. Case studies | Write in        | 1                   |
| Networking  | Write in        | 1                   |
| Round table discussion                                | Write in        | 1                   |
| Lessons learned from past implementation experiences  | Write in        | 1                   |
| Stormwater BMP maintenance                            | Write in        | 1                   |
